

Outcome	PC_BSFB_PO_01	Diversity, integrity, teamwork, interdisciplinary collaboration and life-long learning: We celebrate diversity, integrity, teamwork, interdisciplinary collaborations, and a lifelong pursuit of knowledge.
Outcome	PC_BSFB_PO_03	We provide a superior level of teaching and mentoring, leading to graduates capable of applying the science of forensics to analyzing biological evidence; using laboratory skills to analyze evidence; achieving functional scientific communication skills; demonstrating knowledge in collecting, preserving, and analyzing evidence; and understanding the ethical and legal responsibilities of preventing and detecting forensic mistakes.
Outcome	PC_BSFB_PO_04	Outreach and involvement: We encourage industry outreach and networking with students. We support industry, government, and academic outreach involvement with our students and faculty, and engage members of these sectors in student learning and program development.
Outcome	PC_BSFB_PO_05	Next generation of forensic biologists: We prepare students for careers in industry, academia, government and not for profit sectors. We also prepare students for future certification with the American Academy of Forensic Sciences (AAFS) and/or entrance to medical, dental, graduate or law schools.
Outcome	PC_BSFB_PO-02	Research, partnerships, scholarly activities and internships: We engage in progressive research endeavors in partnership with universities, industry or government, and in the production of meaningful scholarship that relates to our program.
